

## Chalk.com Suite

Chalk.com is an Integrated Productivity Suite connecting several applications for teachers and administrators. Teachers can see all aspects of their classroom in one place, helping them easily organize their entire day. Administrators see curriculum, analytics and reports of their school, while powerfully connecting teachers through a single interface.

### Products

---

#### Planboard

Planboard is the award-winning, flagship lesson planning application of Chalk.com. Teachers can easily plan all of their lessons and organize their schedule, while incorporating multimedia and aligning to standards.

---

#### Markboard

Markboard simplifies standards-based assessments and provides detailed analytics. Educators can connect local curriculum standards and create comprehensive reports.

---

#### Curriculum

Chalk.com Curriculum gives schools the power to create standards-aligned curriculum documents that connect directly to teacher lesson planners. Its simplicity makes curriculum development a straightforward process for implementing new school initiatives.

---

#### Collaborate

Chalk.com Collaborate is an online lesson sharing and Professional Learning Community space designed to keep teacher resources all in one place.

---

#### Admin

Chalk.com Admin provides administrators with detailed analytics on teacher curriculum progress, and gives a birds-eye view into teacher activities for professional development opportunities.
